PRECAUTIONARY STATEMENTS

DANGER: CORROSIVE. CAUSES SKIN AND EYE DAMAGE

May be harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing after use.

PHYSICAL OR CHEMICAL HAZARD: STRONG OXIDIZING AGENT.

Mix only into water using clean, dry utensils. Never add water to product. Always add this product to large quantities of water. Do not mix with other chemicals. Do not add this product to any dispensing device containing remnants of any other product. Such use or contamination with moisture, organic matter or other chemicals may cause a violent reaction leading to fire or liberation of hazardous gasses. In such case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large amounts of water.

FIRST AID

If in Eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after first 5 minutes, and continue rinsing eyes.
- Call a poison control center or doctor for treatment advice.

If on Skir

- Remove contaminated clothing.
- Rinse skin with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If Inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for treatment advice.

If Swallowed:

- Do not induce vomiting.
- · Immediately give 2 glasses of water.
- Do not give anything by mouth to an unconscious person.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a physician, poison control center or going for treatment.

STORAGE AND DISPOSAL

Storage: Keep this product in its original, tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Container Disposal: Do not reuse empty container. Thoroughly rinse empty container with water then place in trash or offer for recycling if available.

Non-chlorine oxidizer. Keeps water crystal clear. Removes organic contaminants.
Eliminates chlorine odors.

NON-CHLORINE BLAST

No waiting Swim right away!

DANGER

See First Aid and Additional Precautionary Statements On Back Panel.

ACTIVE INGREDIENT:
POTASSIUM MONOPERSULFATE

DIRECTIONS FOR USE

Read entire label and use in accordance with precautionary statements and directions.

Regular use of this product will oxidize most of the organic contaminates that result from bather load, skin, mucous, urine, cosmetics, leaves and wind blown matter.

This product is not a sanitizer or an algaecide. For routine disinfection, use an EPA registered product according to label directions

How To Use:

- For the initial treatment, add this product at the rate of 2 pounds per 10,000 gallons of water, in order to insure breakthrough oxidation.
- Subsequent treatment for normal bather load should be made once a week at the rate of 1 pound per 10,000 gallons of water.
- 3). For heavily contaminated pools, more frequent treatment may be required.

How To Apply:

Broadcast the required amount of this product uniformly over the surface of the pool water, adding two-thirds of the total dose over the deep end of the pool. Run the circulation system for at least 12 hours to insure proper distribution. For best results, apply this product when no swimmers are in the pool, preferably at night.

For Spas:

Apply 2 ounces of this product (3 tablespoons) per 500 gallons of water weekly. Add more often if bathing load is heavy. Sprinkle the product over the spa water surface while the circulation pump is in use. This product works best when added to the spa after bathing.
