Makes Chlorine, Bromine, Baquacil®, ozone, ionization and all sanitization systems work better!

A powerful clarifier, sequestrant, chelating agent and flocculent in one product!

ROBELLE

everything for your swimming pool

ITEM NO. 2430

L4153 FP

Compatible
with all swimming
pool sanitizing
systems!

When used weekly:

- Produces crystal clear water.
- Prevents oil and scum deposits.
- Prevents metal stains.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See side panel for additional precautions.
Read all directions carefully before use.

Baquacil® is a registered trademark of Arch Chemicals, Inc.

1 QUART

This product produces crystal clear water through a 4 by 1 action. The rich green formulation combines a powerful clarifier, sequestrant, chelating agent, and flocculent in one convenient product. This product helps prevent scaling, staining, scum line buildup, and foaming in swimming pools and spas. This product requires no premixing, will not affect pH and is compatible with all swimming pool sanitizer systems. It is also useful in removing oils, soaps, metals, cosmetics, and other particulate matter that can cause staining, cloudy water and discoloration in swimming pools and spas. This product may increase filter efficiency.

DIRECTIONS FOR USE

Initial Application: Clean or backwash the pool filter. Apply 1 oz per 5000 gallons of swimming pool water. With pump on and water circulating, apply product directly along the edges of the pool or broadcast over the surface of the pool water. For best results, allow at least 6 hours of pool circulation after applying. If water is cloudy or discolored after 72 hours, reapply 1 ounce per 5,000 gallons of pool water, running pump continuously until clear.

Maintenance Application: Apply 1 oz. per 5,000 gallons once every 2 weeks. This will keep your pool looking crystal clear.

CAUTION

Keep Out of the Reach of Children

Precautionary Statements: DANGER. CORROSIVE TO EYES AND SKIN. Causes eye irritation. Avoid contact with eyes or skin. Wear rubber gloves and safety glasses or goggles when handling.

FIRST AID

If Swallowed: Rinse mouth and drink large amounts of water. Seek medical attention. If on skin or in eyes: Flush with water for 15 minutes. For eyes, seek medical attention.
